## THE IGLOO

# THE IGLOO

The igloo is one of the most significant icons in temporary structures. It creates large open spaces and it has a high suspended rigging capacity.

These structures are designed and produced by Irmarfer, in compliance with all codes and standards, ensuring its safety and stability.

It can be installed anywhere as it's meticulously

planned, including lighting, specially designed flooring, and much more, according to the client's preferences, ensuring the success of the event.

The igloo has proven to be the perfect space for events of all types and sizes, from conventions, sports events, fairs, festivals, exhibitions, weddings, gala parties, and even multipurpose arenas.
